

## EXP 7 Servlet-based project is to store user preferences

### AIM:

The goal of this Servlet-based project is to store user preferences (such as theme and language) using cookies and retrieve and display them on subsequent visits.

### ALGORITHM:

Step 1: Load Preferences Page → **Browser checks for existing cookies.**

Step 2 Retrieve Preferences (GET Request) → **Servlet reads cookies and applies saved settings.**

Step 3: User Selects Preferences → **User picks theme and language.**

Step 4: Save Preferences (POST Request) → **JavaScript sends data to Servlet.**

Step 5: Servlet Stores Preferences → **Cookies are updated and sent back to the browser.**

Step 6: Preferences Applied on Next Visit → **Browser loads saved settings automatically.**

### PROGRAM:

`index.html` (Frontend - Combined HTML, CSS & JavaScript)

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8" />
  <meta name="viewport" content="width=device-width, initial-scale=1.0"/>
  <title>User Preferences</title>
  <style>
    body {
      margin: 0;
      font-family: 'Segoe UI', Tahoma, Geneva, Verdana, sans-serif;
      transition: background-color 0.3s ease, color 0.3s ease;
    }

    .container {
      height: 100vh;
      display: flex;
      justify-content: center;
      align-items: center;
    }

Cookie[] cookies = request.getCookies(); if (cookies != null) {
for (Cookie cookie : cookies) {
if ("theme".equals(cookie.getName())) theme = cookie.getValue();
if ("language".equals(cookie.getName())) language = cookie.getValue();
}
}

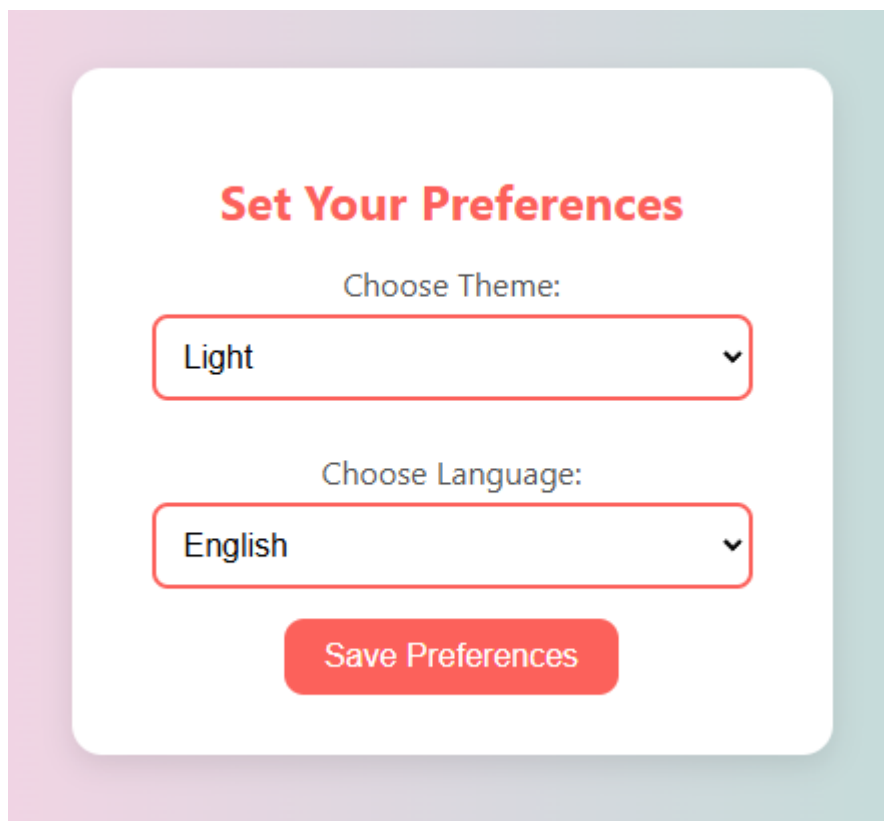

JSONObject json = new JSONObject(); json.put("theme", theme); json.put("language",
language);

response.setContentType("application/json"); response.getWriter().write(json.toString());
}

protected void doDelete(HttpServletRequest request, HttpServletResponse response) throws
ServletException, IOException {
Cookie themeCookie = new Cookie("theme", ""); Cookie languageCookie = new
Cookie("language", "");
themeCookie.setMaxAge(0); languageCookie.setMaxAge(0);
response.addCookie(themeCookie); response.addCookie(languageCookie);
}
}

```

## OUTPUT:

**Set Your Preferences**

Choose Theme:

Light

Choose Language:

English

Save Preferences

## Set Your Preferences

Choose Theme:

Light

Choose Language:

French

Save Preferences

## Set Your Preferences

### Your Preferences

🌞 **Theme:** dark

🌐 **Language:** English

Change Preferences

**RESULT:** The Servlet-based project to store user preferences using cookies were executed successful
